A MESSAGE FROM THE
PRESIDENT AND CHIEF EXECUTIVE OFFICER

On behalf of the talented and hard-working employees of Peapack-Gladstone Bank, I am happy to report yet another year of record performance for our company. We reported net income of $44.2 million–$45.3 million on a core basis, resulting in a 24% increase year-over-year. And, we reported fully diluted earnings per share of $2.31–$2.37 on a core basis, resulting in a 17% increase compared to 2017. Notwithstanding this solid gain in profitability, our share price declined 28% to close at $25.18 at year end. Our stock has recovered somewhat in early 2019, and we firmly believe that with patience and discipline, we will deliver superior shareholder value over time.

Our company ended the year with total core revenues of $161 million, loan outstandings of $3.9 billion, deposits totaling $3.9 billion, and total capital of $469 million. Every one of these measures was a record level of achievement. Commercial and Industrial (C&I) loans, including equipment finance, grew by 46% or $440 million to $1.4 billion, deposits grew by $197 million or 5%, wealth management fees grew by $10.1 million or 43%, and our net income has grown at a compounded annual rate of 30% since the launch of our strategy, Expanding Our Reach, in 2012.

Much of our growth in profitability has been the result of the “scale” we have built in both our commercial banking business and in our wealth management division. We believe these core businesses, that will serve as the foundation of our future growth, present great opportunity as a niche player in the New York metropolitan market. Both businesses are built on providing sound, unbiased advice that leverages people and relationships, supported by technology, and our team consistently delivers a differentiated level of service. At Peapack-Gladstone Bank, we empower our employees to act in the best interest of our clients with no proprietary products and no bias. This approach has enabled us to attract a significant number of high performing professionals from large institutions where employees feel less valued. Our focus on the metropolitan New York market provides us with great talent and ample opportunity to deliver attractive shareholder returns.

MARKET CONDITIONS TIGHTENED IN 2018

Net interest margin compression, the difference between what we pay for deposits and what we charge for loans, really began to tighten in 2018. The Federal Reserve increased short-term rates by 1% during the year and many depositors, who had been receiving virtually no interest on their deposits over the last several years, began to focus more on receiving higher returns. Rates increased dramatically over the year and we, as did all banks, needed to respond. In addition to dealing with higher short-term rates, the reversal of Quantitative Easing (QE) stimulus programs implemented during the financial crisis began the process of shrinking the money supply. Over the next few years, the U.S. Treasury expects to reduce the money supply by $1.5 trillion. Both actions by the government will impact interest rates over time and challenge us to carefully manage our balance sheet, capital, and operating costs. Deposits are an essential element to generating loans, and we remain focused on attracting deposits.

On the wealth management front, the stock market experienced its worst December performance in nearly 50 years. While we have seen some recovery in early 2019, higher levels of volatility are anticipated this year as we believe we are moving closer to the completion of what has become the longest economic expansion in history.

All of these market conditions cause us to be more cautious and disciplined as we focus on the next few years.

CORE FEE INCOME GREW 32% IN 2018 TO 28% OF TOTAL REVENUE

We grew fee income across the board in 2018, with wealth management fee income experiencing the largest gain. Wealth management fees were up $10.1 million or 43% year-over-year and now contribute 21% of total revenue for our company. Our two to three-year plan is to grow total fee income to 35%–45% of our total bank revenues, with wealth management making up the vast majority. This level of revenue diversification is consistent with the strategy we launched in 2012, and we feel relatively confident that we will meet this target.

OUR SHARES CONTINUE TO UNDERPERFORM COMPARED TO ASPIRATIONAL WEALTH MANAGEMENT PEERS

The chart below compares our relative valuation to that of our aspirational wealth-based peers. While we have made considerable progress in closing the gap, we continue to believe we are undervalued. We have identified a group of banks with a wealth management focus that carry a premium valuation. As we continue to execute our plan, we believe we will achieve parity providing shareholders with an attractive share price.
The fact that our shares declined by 28% in 2018, while core earnings per share increased by 17%, illustrates a lack of correlation between our company’s performance and our share price on any given date. We are less concerned with irrational and volatile market behavior and remain singularly focused on executing our strategic plan. We know that over the medium to long term, the highest performing institutions deliver the highest shareholder return.

**WEALTH MANAGEMENT HAD A TREMENDOUS YEAR DESPITE THE SELL-OFF IN Q4**

Wealth management fees increased $10.1 million or 43% in 2018. This growth reflects full year performance of Murphy Capital Management and Quadrant Capital Management, and solid new investment inflows of over $400 million. Additionally, in September, we welcomed Lassus Wherley to the Peapack-Gladstone Bank family. Founded and led by Diahann Lassus and Clare Wherley, this women-owned firm brings with it extensive tax and financial planning expertise. We are currently formalizing plans to expand our financial planning capabilities company-wide. Lassus Wherley contributed four months of revenue to our 2018 total. As we have over the last few years, we will continue to pursue wealth management acquisition opportunities with firms that are culturally similar and that are additive and/or complementary to our company and consistent with our strategic vision.

In 2018, we created a comprehensive plan to integrate and unify our wealth business under a new brand—“Peapack Private.” This comprehensive plan includes streamlining and connecting our investing and research activities, building a common operating and technology framework, and as just mentioned, expanding our financial planning capabilities.

**OUR PLATINUM SERVICE TEAM GREW AND CONTINUES TO EXCEED CLIENT EXPECTATIONS**

In its second full year of operation, deposits managed by our Platinum Service Team grew by 65% or $277 million to $702 million in 2018. This team provides best-in-class banking services to businesses and our most affluent personal clients. The Platinum Service Team also serves as a training platform for our next generation of bankers. During the year, we launched a formal training program and have made plans to hire the next generation of bankers over the next three to five years.

**RETAIL BANKING HAD ITS BEST YEAR EVER**

Our Retail Banking team continued to focus on new client acquisition through our high-touch model and innovative products. During the year, we grew deposits by $197 million. We now have a comprehensive new business strategy for each of our growth markets. This approach places additional manpower and marketing resources in a thoughtful and focused manner. We recently tested this in one of our markets and generated significant new business as a result. To date, client retention has been very strong.

**THE INFLECTION FROM MULTIFAMILY TO C&I LENDING GAINED CONSIDERABLE MOMENTUM**

When we launched our strategy—Expanding Our Reach—six years ago, we communicated that we would fund the build-out of our wealth management and commercial lending businesses and make necessary investments in infrastructure, technology, and risk management by expanding our multifamily lending. Multifamily lending in greater New York has historically been a very safe asset class. Knowing that we could grow multifamily quickly and safely, we originated more than $2 billion in loans with no material delinquencies or credit impairment issues.
Multifamily lending provided us the revenue that enabled us to invest in and grow our wealth and commercial businesses. The plan was always to decrease our reliance on this asset class as our business grew. In 2018, C&I loans grew 46% or $440 million while multifamily declined by 18% or $251 million.

Since loan spreads are typically better for commercial loans, we took the opportunity to sell $131 million of longer dated multifamily loans in Q4 2018. The portfolio we sold carried a coupon of 3.28%, which was replaced by shorter-maturity commercial loans with an average coupon of 4.78%. Being opportunistic like this enables us to create shareholder value.

Our commercial real estate business closed $143 million in new loans in 2018. Virtually all of this loan volume was on a floating rate basis, which has helped us navigate rate increases. Clients looking for a fixed rate are accommodated through an interest rate swap arranged through a third party. This activity generated $3.8 million in fee income in 2018—a record.

In addition, our Small Business Administration (SBA) business generated a record of $1.6 million in fee income. SBA fees are generated by selling the government guaranteed portion of an SBA loan. Overall total fees from Swaps, SBA and residential mortgage sales totaled more than $5.8 million in 2018, a 22% increase over 2017.

**SUSTAINING OUR UNIQUE CULTURE IS AN IMPORTANT OBJECTIVE**

From my perspective, our company’s culture is what makes us unique and special. As we grow, preserving our culture is a top priority.

In early 2018, we concluded an exhaustive search for a head of Human Resources. Brydget Falk-Drigan joined us from a large international financial service firm. Through her leadership, we now have a well-defined talent development program, established a companywide culture committee, enhanced our internal process for communication, and expanded our recruiting capabilities. Each of these initiatives supports our culture as we continue to grow.

As evidence of our unique culture, in 2018 we were recognized by American Banker as one of the best banks to work for in the United States. We were the only New Jersey bank to receive this prestigious recognition. We believe having employees who love their job and the people they work with drives success. Our culture is what delivers a great experience for our clients who in turn reward us with their trust and ultimately their business. This is our formula for success.

**OUR TEAM CONTINUES TO FOCUS ON THE CLIENT EXPERIENCE**

Over the past two years, Bob Plante, our Chief Operating Officer, along with Kevin Runyon, our Chief Information Officer/Chief Digital Officer, have made significant strides in updating our technology and operations, with an eye toward enhancing the client experience. In 2018, we enhanced our data driven decision making and began focusing on digital, which will enhance the client experience and will help drive cost efficiencies. In addition, we successfully rolled out a comprehensive training platform, an enhanced escrow management system, an automated collateral tracking system, and have embarked on an effort to assess potential vendors for an automated commercial loan system. A thoughtful updated multi-year technology roadmap is being developed, and I expect that we will complete this assessment mid-2019. Technology has become an essential ingredient for our future success.

**ANOTHER GREAT YEAR, AND WE REMAIN OPTIMISTIC ABOUT OUR FUTURE**

We delivered strong results in 2018 and remain optimistic about what is to come. We are taking the necessary steps to thrive in the future. Through our recent growth, we have achieved scale and our unique...
“In 2018, we were recognized by American Banker as one of the best banks to work for in the United States. We were the only New Jersey bank to receive this prestigious recognition.”

business model is delivering results. We have a great team, and we are winning our share of business in a very competitive market. Remaining disciplined will continue to deliver future profitability.

There are a number of factors that collectively will drive future increases in share price. First, we operate in three of the top ten most affluent markets in the United States. Second, our key growth businesses—wealth management and commercial banking—are businesses that have considerable scarcity value and barriers to entry, and thus supports a premium valuation. Third, our team has proven that we can drive organic growth and profitability. Fourth, our average deposits per branch now approach $200 million; this provides us with a cost advantage relative to our competition. Fifth, we have a pristine balance sheet with a very strong credit quality. Sixth, we have an enviable capital position. Perhaps most important seventh, we have a tremendously experienced and high-performing team of professionals capable of taking our company to the next level.

In closing, I would like to thank our Chairman, Duff Meyercord, and our Board of Directors for their support and leadership over the past year. A special thanks to John Kissel and Jim Lamb for their service on our Board; both retired effective 01/31/2019. John and Jim have helped guide and strengthen our company, and our entire team is very thankful for their guidance and support.

In February 2019, we welcomed two new Directors to our Board—Peter Horst and Patrick Mullen. Both have unique skills that will help guide us through the next chapter in the execution of our strategic plan.

Peter Horst is a Fortune 500 Chief Marketing Officer with 30 years of marketing leadership across diverse industries in consumer and business products, services and technology for market leaders such as Capital One, General Mills, US West (Century Link), Hershey and Ameritrade. He is the founder of CMO, Inc., and serves as a consultant, author, speaker, board member and advisor to senior executives on marketing strategy, messaging and growth planning.

Patrick Mullen is a highly experienced financial services professional with a distinguished history of team building and effective relationship management. He is an accomplished and seasoned leader, who recently retired as the Director of Banking, State of New Jersey, for the New Jersey Department of Banking and Insurance, for which he worked over the past eight years. There, among other things, he was responsible for the examination and supervision of all state-chartered banks and credit unions and state-licensed non-bank financial institutions.

We welcome Peter and Patrick to the Peapack-Gladstone Bank family. Once again, many thanks to all of you for your continued support. We appreciate the trust and confidence that you have placed with us.

“Peapack-Gladstone Bank financed two office properties for us in 2018, and we were extremely pleased with the outcomes. So much so that we are currently working on a third project with our banker. The dedicated service we receive and the integrity which Peapack-Gladstone Bank operates with is key and gives us the peace of mind we need to move forward with such large ventures.”

ABE AND FAIGY GOLDBERGER, FOUNDERS
“For three generations my family has been proud to be the premier residential real estate firm in the region, and ever since my grandmother started our agency in 1960, Peapack-Gladstone Bank has been a part of our story. Through the years, PGB has provided a level of personalized service to my family with a friendliness that is reminiscent of a bygone era. Like us, however, the bank has also evolved to meet the needs of an ever more sophisticated clientele without sacrificing their commitment to relationships that has endeared them to so many over the years.”

“Peapack-Gladstone Bank’s commitment to its clients is a value we share at Wakefern Food Corp., where we also believe strongly in providing top-notch service and support to our customers and retailer members. The bankers at Peapack-Gladstone Bank understand our business model and work closely with us to help achieve our goals. That kind of support is essential in a competitive world and allows us to help our members achieve their goals.”

KEN GROGAN, DIRECTOR OF TREASURY SERVICES
“I must say, it is a pleasure working with Peapack-Gladstone Bank. Their client service is absolutely the best I’ve ever seen in the industry! Not only are they the friendliest group, but couple it with expert knowledge, high energy and even throw in a sense of humor. They truly set the bar for other banks. I recommend Peapack-Gladstone Bank with enthusiasm.”

“Moving my firm’s significant banking relationship from a large institution to Peapack-Gladstone Bank was not about a better rate and structure. Although that’s important, it’s not as paramount as trust, integrity and stability. I’ve known Doug Kennedy, the CEO, and market president, Stu Vorcheimer, for over a decade, and have always been impressed with their commitment to putting their clients first. Super Stud transitioned over 30 treasury management accounts to PGB, and along with a thoughtful and quick turnaround in structuring various lending facilities, everything went seamlessly. The Bank’s hands on approach is refreshing. I look forward to continuing to work with PGB as they provide advice and solutions for my firm and my family.”

PEAPACK-GLADSTONE BANK PRIVATE BANKER: WILLIAM GASCOIGNE

ARBEE ASSOCIATES

“I have worked with Bill Gascoigne for about 25 years, so when he told me he was part of the Professional Services Group at Peapack-Gladstone Bank, a bank I wasn’t familiar with, I was curious. He introduced me to his team and I was immediately comfortable with their approach to our complex commercial financing needs. PGB was open-minded and flexible, and is not only our main bank, they are our only bank.”

VINCENT MARRON, CHIEF FINANCIAL OFFICER
Orlando Foods is a third-generation, family-owned food importing company based in Northern NJ, with sales throughout the U.S. and Canada. They are the exclusive import partner to many of Italy’s leading brands in their respective fields. As a company, they pride themselves on product quality, service and product knowledge. Together with their supplier partners, they offer a 360-degree view of the industry. They sell to food service, traditional retail as well as internet-based retail. And, they work with chefs and pizzaioli across the country to create demand for their quality brands.

PEAPACK-GLADSTONE BANK COMMERCIAL PRIVATE BANKER: ROBERT PUCCIO
OUTCOMES MATTER INNOVATIONS (OMI)

“We are very excited to partner with Peapack-Gladstone Bank. They truly understand the needs of our business and have been a great pleasure to work with.”

MICHELE DONATO, MD, FACP, CPE

Outcomes Matter Innovations (OMI) was created with the mission of removing the administrative and back-office burdens facing hospitals and independent physicians in today’s constantly-changing healthcare environment. OMI provides real-world expertise to help hospitals, multi-disciplinary groups and individual practitioners grow and thrive. Services offered by OMI include, but are not limited to, cost management and financial reporting, billing and collecting, joint venture opportunities, development of growth strategies and operations and business development consulting.

+Funds participating in the PGB Insured Liquidity Sweep Account are deposited into deposit accounts at participating banks, which are insured by the Federal Deposit Insurance Corporation (FDIC) for up to $250,000 for each category of legal ownership, including any other balances you may hold directly or through other intermediaries, including broker-dealers. The total amount of FDIC insurance for your account depends on the number of banks in the program. If the balance in your account is greater than the FDIC insurance coverage in the program, any excess funds will not be insured. Please read the Program Terms and Conditions carefully before depositing money into the program and for other important customer disclosures of information. To assure your FDIC coverage, please regularly review banks in which your funds have been deposited and notify your bank immediately if you do not want to allocate funds to a particular bank or banks.
